EXPERIENCE

ANIMAL COMMUNICATION & INTUITIVE BIOMIMICRY®

Worldwide wildlife encounters, February 2010 - present

Have been diving around the blue planet mainly among wild dolphins, but also with humpback whales, belugas and killer whales. Integrating experiences of life with them, a concept of nature inspired lessons applicable in daily lives for humans called "intuitive biomimicry".

Conferences Aquanha®, Europe, May 2015 - present

Developed the concept of Aquanha, a multiple audiences structure based on intuitive biomimicry, with a balance of my own personal interspecies encounters, and external researches towards a new paradigm in the Human-Animal-Nature relation.

Wild dolphin Guide, Europe, May 2015 - present

Have been partnering with agencies to guide people to respectfully live the experience of swimming with wild dolphins in Egypt, with similar behavior of encounter to connect at a deeper level with the nature and wildlife. The Aquanha concept is meant to guide through the experiences consciously, with a range of intuitive tools, and the nature inspired methods of intuitive biomimicry.

PROJECT MANAGEMENT & MARKETING

WAVE Company, Hauts de France, France 1994 - March 2021

Started as a translator/ trainer with an American team in France, and created training documents. Acted as a European Project Manager and Marketing Coordinator for projects launched in Europe.

EDUCATION

GENERAL EDUCATION AND SCHOOL

Lycée du Hainaut & University Mont Huy, Valenciennes, France, 1984 - 1988

INTERNATIONAL MANAGEMENT

OPEN University, Bruxelles - 2001

UNIVERSITY Paris Descartes

DU Human-Animal Relation (2018)

PROJECTS

· Connected diving suit® · Create a start-up · IoB (Internet of Biodiversity)
· Basic & applied research (Ultrasound - Well-being & medical)
· BLUE lingua association created as vice-president (Protect the environment through a new paradigm of Human-Animal-Nature relation / Soundscape study / Interspecies communication exploration)
